Abstract
Political Thought at the virtual Ibn Hazm

meteb Farhan Rashid al-Balawi

Mu'tah University, 2012

This study addresses the political thought when Ibn Hazm virtual in terms of his life and the times in which he lived, and the methodology of Ibn Hazm in elicitation, and political thought emitted by this method for the concept of Imamate, and the position of the end of the sentence, and a statement to the relationship of the Islamic state with its citizens and other countries.

The study was divided into five chapters and an introduction and a conclusion, as shown in the first chapter the importance of study and the reason for my selection, then you explain the problem of the study and that will answer questions, and methodology in my studies.

The second chapter talked about the era of Ibn Hazm virtual life and approach elicitation him, and their impact on political thought, while Chapter three of the statement Imamate terms of its concept, and agreed terms and difference of opinion, and the opinion of Ibn Hazm, and allocated the fourth quarter to talk about the position Ibn Hazm of the expiration of the mandate of governance where the ruling out, and the isolation of the ruling the ruling to retire and for the Imamate.

In the fifth chapter showed the internal relationship between the State and the State to its nationals in terms of rights and duties with a statement relationships and transactions between Muslims and political warlords in the thought of Ibn Hazm, then followed after that conclusion, showed the most important findings and recommendations of the study.
