Abstract

This thesis is consisted of four headlines; Intellectual dimension, Ibn Hazm & Love, historical & literature. The Intellectual dimension headline contains three chapters; Ibn Hazm & Intellectual reflection, The philosophical headline contains three chapters: ; his opinions & its impact on renovation; Ibn Hazm methodology to argue his opponents. Intellectual dimension headline is consisted of two chapters: Ibn Hazm theory in love. And between Tawk and Zahra (Comparing between them). The third headline is consisted of two chapters: Significance of historical study to Ibn Hazm and his methodology in the study of history. The fourth headline is consisted of two chapters: Ibn Hazm style between science & literature & patterns of his poetry.

I had taken into consideration the messages which serve each headline in terms of study & analysis & supported by the similar approaches in his other books. I had sorted out the writings against each headline or chapter by the researchers or authors & have them compared. My point of view is given within the limits of my knowledge.

The thesis has a distinctive characteristic which contains various subjects & fields, because Ibn Hazm was the intellectual

scholar of his time, who had attained immense volume of sciences related to religion, philosophy, logicisation, language, literature, history, sociology, psychology and so on.

He dealt with these sciences based on his creed which had left prints on his opinions, ideas & beliefs.

Ibn Hazm had contributed in the field of creativeness & renovation in religious, social, philosophical & psychological aspects. I have focused on these aspects as much as I could, especially his works which had been incompletely studied. Andalus environment could be gleaned in Ibn Hazm time in terms of policy, religion & culture and how these factors affect each other as to growing & prosperity progressively or retreat.

There were interactions against Ibn Hazm opinions & theories on Arabic, Islamic & European levels. There were studies & researches some of which support & oppose, which enriched the reasoning in terms of Islam & humanity.

I made a conclusion for which I have afforded an introduction in which I spotlight on Ibn Hazm creed in general. I have explained the working steps and the difficulties I encountered. I have listed down names of resources and references on which I have majorly depend on.
